UDHBHAHAHA

An Education Centered Community

An intimate learning space, encouraging creative and fearless expression while celebrating our cultural roots.

A TIME TO REINVENT OUR SOCIAL TEMPLATES AND EDUCATION SYSTEM

Questions
that every
parent and
teacher
should
ponder over.

Is it possible to build a strong society with children growing up in fear, pressure, purposeless, clueless about values & culture?

Are we happy about the upbringing of our children?

Why do we seem so disconnected in this age of hyper-connectivity?

Are we really independent?
What kind of children are we giving to the society?

What are the real skills needed for living in this world?

Head-oriented approach to education has created a serious imbalance in individuals due to which youth of today are dealing with anxiety, relationship issues, lack of clarity and direction, compromised values, heavy dependency on the system leading to fears and self-centricity. History has taught that no nation can walk the path of prosperity without living in harmony with nature, being culturally grounded and rooted in strong values.

Hence arises an urgent need to raise children as healthy and wholesome individuals.

A BOLD SOCIAL EXPERIMENT

Head, Heart and Hands:

Love of place and a sense of connection or belonging is the key to fostering sustainability values in children.

At Udhbhavaha, we attempt to provide a holistic education that nourishes the head, heart and hands of the child, growing into balanced individuals capable of making a difference to society and sustaining oneself. We are a community of teachers, children and parents who are seeking to lead a connected-purposeful life and want to create an environment grounded in our culture.

Paakashastra

We provide a fertile soil for children where they:

- Experience inner freedom
- Learn to live in harmony
- Develop deep observation skills and contemplation
- Think logically and reasonably
- Learn to be sahaja
- Traverse the path of seeking, exploring and finding answers
- Live by the core values of Udhbhavaha

HOW CAN YOU BE PART OF UDH BHAVAHA

1

As Parents who are inspired by this thought process and are looking for a holistic education for their children.

2

As Teachers who see this as their life's journey.

3

As volunteers who are willing to support our growth story.

4

As Research Assistants who can help us in our research in various subjects and also in documenting our learnings.

5

As benevolent donors providing financial support, affirming the role of society in sustaining such initiatives.

Udhbhavaha (an initiative of Vidyakshetra Trust) is a not-for-profit organization and we follow a daan-based financial model. There is no prescribed fees for children joining us. We request parents to donate to the best of their capacity towards the initiative. This model is designed to:

- Make Udhbhavaha accessible to all parents who want to be part of this journey irrespective of their financial status.
- Move away from a consumer-vendor relationship in the field of education as the purpose of education is lost when it becomes a business.
- Seed a thought of change in the society at large by reaching out to them to support the cause.
